REBELS MAY IMPORT ARMS AT TAMPICO

Administration Likely to Raise Little Objection to Plans of Constitutionalists.

Indications today pointed to the acplescence of the Administration in lans of the constitutionalists to receive mitions at Tampico.

Secretary of the Navy Daniels delared that the navy's attitude regardng cargoes at Tampico is "passive." Both he and Secretary of State Bryan hinted that there is nothing to prevent American manufactures and authoritions to Tampico.

The only orders issued to the navy are general directions to be on the lookout for arms shipments. Some lookout for arms in this country have

lookout for arms shipments, some manufacturers in this country have volunteered not to send arms to Mexico. Others have asked Mr. Daniels what attitude they should assume if they received orders for ammunition. The Secretary replied that he did not wish to give them advice or to lay down a policy for the Administration. The German ship Bavaria, with arms or Huerta, is due at Havana Monday, ut is under orders to return its cargo of Germany.

It seemed apparent that there is working agreement with other nations to prevent Huerts from getting arms. The Ypiranga is again cruising in Mexlean waters, and apparently still has her arms cargo aboard. There is an agreement, however, not to land them.

Monclova Falls at Assault of Rebels

PAREDON, Coahuila, Mexico (via Torreon), May 16.—Surprised by constitutionalist scouts, 500 federals who escaped from Monclova, when that stronghold was captured by rebel forces late yesterday, are cornered today in the sand hills north of here. Latest reports showed a desperate struggle was in progress.

Messages at dawn today said fifty fleeing federals were killed when they stumbled into the camp of the constitutionalist soldiers. The rear guard of General Villa's army, which was to have marched south to join him in the attack on Saltillo, turned north to re-enforce the scouts and cut off the retreat of the Monclova federals who are evidently trying to reach Saltillo.
